### Location

Beijing, China

As Environmental Advisor to the games, CH2M HILL worked closely with the Beijing Municipal Government to develop its successful bid for the 2008 Olympic Games.

Following the selection of Beijing as the site of the Games, CH2M HILL went on to help the Beijing Olympic Committee for the Olympic Games (BOCOG) develop an environmental management system and environmental management program, which allowed

BOCOG to ensure that environmental pledges made during the bidding phase were fulfilled. CH2M HILL also designed the cruise and yacht facilities that are part of the new sailing venue complex in Qingdao.
